

Legacy Moments Last FOREVER

Do you have a box of photos about which your children and grandchildren know nothing? Do you want your family to know your personal legacy? How do you pass along your wisdom and personal stories to your family? How do you clear up any questions they may have about "the early years"?

Your life and legacy are unique!

Consider ***Legacy Moments Last Forever***, a personalized service that walks you through your tears, fears and cheers you to VIDEO-RECORD your story.

Overwhelmed but not sure what you actually want to share? Choose themes important to you: marriages, relationships, friendships, births, deaths, dates, events, milestones, illness, accidents, military, pets, sports, anything meaningful for future generations, but especially the stories.

We encourage you customize how you share your legacy. You can either be interviewed and / or narrate your photo collection. Feel free to mix and match.

We'll help you narrow down to key themes to flesh out three to five areas of interest in each video segment. (Please note: each video will last anywhere from two to eight minutes in the finished recording. You will be given the opportunity to review and approve each video prior to final editing.)

You choose your ***photos*** for each theme. As you walk down memory lane narrating your photos on the screen, your family will experience your emotions as they see your face and hear you voice.

To get you started for the story telling / interview portion of your legacy, you will receive a list of questions to spur you on to the stories that need to be shared. You choose the ***questions*** that feel right for you. When you're in front of the camera, you will be asked those pre-selected questions to keep the style conversational and comfortable.

Nancy Olsen, from ***Legacy Moments Last Forever***, will walk with you to help determine the goals and vision to video-record YOUR legacy story at the location of your choice.

Expect to spend a half day (4 hours) for your ***Song & Dance*** Session. For your ***Performance*** or ***Full Feature*** expect to spend up to two half-day sessions. Your completed project will be available in approximately two weeks. A copy will be provided on a thumb drive for safe keeping. And of course you can share with family and friends on your private YouTube channel!
